## ABOUT ME:

# Dyhanara Rios

**Poet, musician, and multimedia magician.**

I love to be creative, whether it is web and graphic design, songwriting, playing piano and singing, painting, photography, and more. I enjoy public speaking and sharing my talents through community engagement, mentorship and environmental stewardship.

Dreamweaver  
Premiere Pro  
Acrobat Pro  
Audition  
Animate

### Microsoft Office

Word  
PowerPoint  
Excel

### Other

Canva  
Eventbrite  
Hootsuite

### Social Media

Facebook  
YouTube  
Twitter  
Instagram  
Tumblr  
Pinterest  
TikTok  
LinkedIn

# UI/UX Design Values

*I emphasize the following in my web design projects:*

## Visually Appealing

*Clients will enjoy viewing the end product, sharing it with others, tell their story through their brand, and take pride in ownership.*

## Functional and Responsive

*Clients will own a website that is more than beautiful; it caters to current and future needs across all platforms (desktop, mobile, tablet).*

## Secure and Scalable

*Clients will be protected against cyberthreats and the website meets standard coding conventions so it can be updated at a later date.*

# Visually Appealing

I ensure the best product within the given time and financial constraints with my background in graphic design, my real-world experience in account management and consultation for multiple clients and other jobs, and my formal education (Bachelor's Degree in Mass Communications and Electronic Media from Texas State University).

# Functional and Responsive

Web design standards are ever-changing; projects must be ready to scale and revise as these industry changes occur. Websites must also be accessible to: people with disabilities, all users including mobile device users, or those with slow network connections.

# Secure and Scalable

## **Safeguarding against threats and preparing for future needs.**

Websites need to be encrypted, access and passwords must be protected, and code integrity must be in place to ensure that the site can be updated when needed.

# OTHER SKILLS

Graphic Design	Social Media Strategy	Media Relations	Advertising Buying and Selling
Partnership and Stakeholder Engagement	Public Speaking	Event Planning	Data Management

**WEBSITES**

# U.S. Green Building Council - Texas

usgbctexas.org

The screenshot shows the homepage of the U.S. Green Building Council - Texas website. At the top left is the logo for the U.S. Green Building Council Chapter Texas, featuring a circular emblem with a tree and the text "U.S. GREEN BUILDING COUNCIL CHAPTER TEXAS". To the right of the logo is a search bar with the placeholder text "Enter search string" and a "Log in" button. Below the search bar is a green navigation bar with the following menu items: Home, About Us, Regions, Get Involved, Donate, Events, Connect, and Blogs. The main content area features a large banner with the headline "THE LIVING STANDARD" in white text on a dark blue background. Below the headline is a paragraph of text: "Where we live, work, and play should not hurt us, but protect and enrich our lives in a sustainable way. This should not be a luxury or a privilege, but a standard everyone can enjoy and expect." To the right of the text is a small icon of a house with a triangle above it. At the bottom of the page, there is a footer with the text: "The U.S. Green Building Council Texas is a community-benefit (501c3) nonprofit committed to ensuring a better built environment for current and future generations of Texans. We are uniquely".

Assistant webmaster for U.S. Green Building Council - Texas Chapter. The website runs on Wild Apricot (Personify). Created the landing page for the [Best Practices Champions mobile app](#) and other special project pages.

# WaterPR

waterpr.com

WaterPR  
We talk water.

HOME WHAT WE DO TEAM CLIENTS CONTACT

f t

We've been blabbing about water for decades.

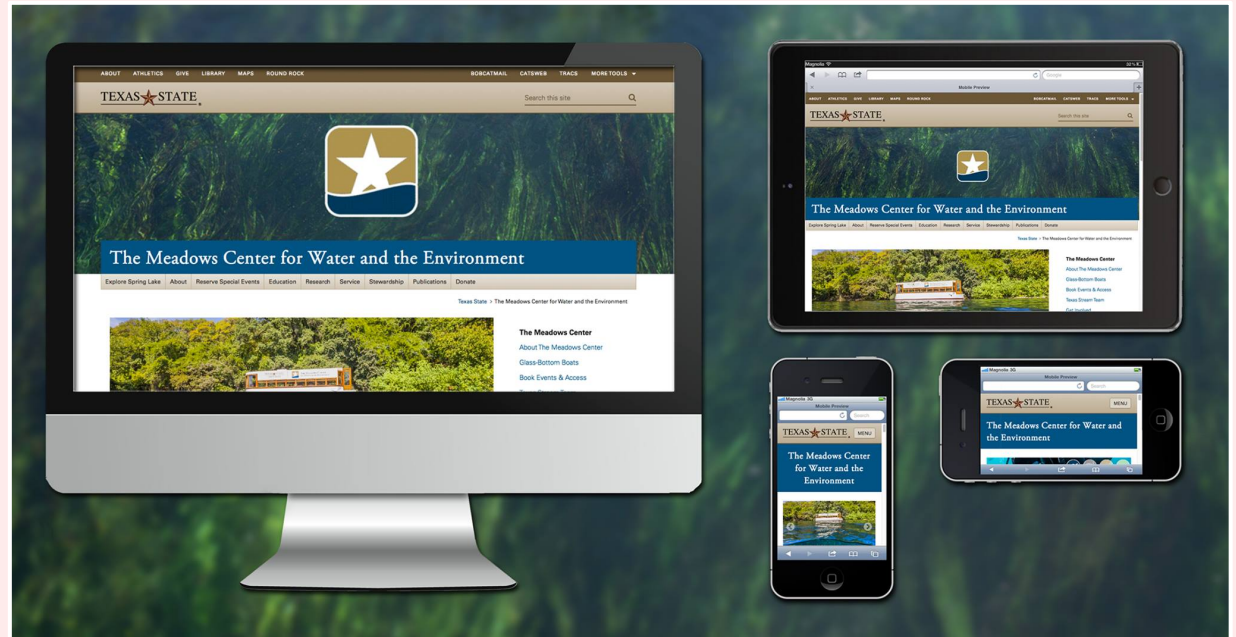

And we're not stopping any time soon. Our clients are visionaries and leaders with whom we share a deep understanding that our world revolves around one thing. *Water!*

Webmaster for WaterPR in 2017. Reworked existing pages to help tell the story of the public relations agency and how the PR firm tells the story of clients in the water industry. The website runs on SquareSpace.

# The Meadows Center

meadowswater.org

Redesigned The Meadows Center for Water and the Environment at Texas State University's website when the university's CMS was changed. Migrated pages and created new pages, removing legacy coding.
